FACTS ABOUT Teacher as a Leader...

...for Educational Development

The excellence of your educational system as a whole will not exceed the degree to which its people are being trained up

...for Instruction

Teaching excellence is defined by the degree to which the teacher is able to actively engage the student in a dynamic and challenging thinking process

...for Teaching

The excellence and quality of a teaching career is determined by how well the teacher comes to understand and master the forces that are shaping it

Achieving dynamic, **system-wide** results in your education program, from developing **administrators** to creating exceptional **teachers**.
